ZFX is the world's largest manufacturer of theatrical performer flying harnesses. We are the only performer flying harness manufacturer whose harness connection clips are both TÜV certified and CE marked. Each harness is designed to have the perfect balance of comfort and safety, while still maintaining a low profile to fit beneath costumes. All ZFX harnesses are made in both black and tan, and additional colors are available via special order.

SINGLE POINT HARNESS – full-body strap harness with a single quick-connection point between the shoulder blades, our single point harnesses are perfect for dynamic, Peter Pan-style flying!

Single Point Harness € 825.00

SEAT HARNESS – comes in two styles: standard and quick connection. The standard 2-wire seat harness has V ring pick up point for use with carabiners or quick-links. The quick connection comes with small and discrete TÜV certified quick connection clips on each hip so that performers can connect themselves even while onstage. We also offer optional leg support “stirrups,” which add comfort and support for prolonged hang times, vocal projection and heavier builds..

Standard Seat Harness € 660.00
 Quick Connection Seat Harness € 760.00
 With Stirrups (leg supports) add € 140.00

SOMERSAULT HARNESS – The name says it all. This harness gives you the freedom to do somersaults for really dynamic effects. The standard model does not have shoulder straps but they are available as an option for certain body shapes or to comply with local regulations. Stirrups can be added as well.

Standard Somersault € 1,145.00
 With Shoulder Straps € 1,285.00
 With Stirrups (leg supports) € 1,285.00
 With Shoulder Straps and Stirrups € 1,425.00

TRIPLE POINT HARNESS – stuck on deciding between a Somersault and Single Point harness? Don't worry, we created this harness so performers can easily switch between different flying systems without needing a quick change!

Triple Point Harness € 1,750.00

TWISTY RING HARNESS – this harness allows the performer to flip and to spin on two axes simultaneously. This harness is often used with a 3D systems or wall-walking. Our Twisty Ring Harness can be anodized in a variety of colors, including chroma green.

Twisty Ring starting at € 5,900
