ZFX harnesses are specifically designed for use in theatrical productions with the perfect balance of low profile, comfort and safety. If our stock harnesses listed below do not fit your exact needs, contact us about custom harnesses...we literally make them every day.

**SEAT HARNESS:** standard 2-wire seat harness is designed with a quick-release connection on each hip so that the performer can connect themselves, even while onstage. Are you flying Opera Divas who are in the air for an extended period of time or for those, how shall we say this nicely, bigger boned performers? Make sure to buy the optional leg support "stirrups" adding comfort for prolonged hang times and larger builds.

**STANDARD SEAT HARNESS** .....€ 600

With Stirrups (leg supports) .....€ 675

**SOMERSAULT HARNESS:** The name says it all. This harness gives you the freedom to do somersaults for really dynamic effects. The standard model does not have shoulder straps but they are an option that may be needed for certain body shapes or to comply with local regulations. Stirrups can be added as well.

**STANDARD SOMERSAULT** .....€ 950

With Shoulder Straps .....€ 1,025

With Stirrups (leg supports) .....€ 1,025

With Shoulder Straps and Stirrups .....€ 1,075

**SINGLE WIRE HARNESS:** Also known as the Peter Pan harness, this is a full-body strap harness that has a single quick-connection point between the shoulder blades. ....€ 750

**TRIPLE-POINT HARNESS:** Combines the Somersault and the Single Wire harnesses into one harness. ...€ 1,500

**DEVELOPMENT FACILITY**

611 Industry Road | Louisville, KY 40208
